PII: S0960-0760(01)00103-0

SUBJECT INDEX

5-Alpha reductase type 2
structure-function studies of human, using site directed mutagenesis, 167
Androgen(s)
comparative biosynthetic pathway of, and androstenol, 223
modulation of, response by recombinant human 11-*cis*-retinol dehydrogenase, 129
Androstenol
comparative biosynthetic pathway of, and androgens, 223
Aromatase
overexpression of, in transgenic male mice, 13

Breast cancer
inhibition of glucocorticoid receptor expression and induction of glucocorticoid resistance by estradiol in MCF-7 human, cells, 29
in vitro and *in vivo* biologic effects of FC-1271a in, 271
Breast cancer patients
pharmacokinetics and metabolism of formestane in, 39

Catchol estrogen(s)
high metabolism of, by type 1 estrogen sulfotransferase (hEST1), 83
11-*Cis*-retinol dehydrogenase
modulation of the androgenic response by recombinant human, 129
Creatine kinase B
a noncalcemic analog of 1α-25-dihydroxyvitamin D_3 upregulates the induction of, by 17β-estradiol in osteoblast-like ROS 17/2.8 cells and in rat diaphysis, 205

11-Deoxycortisol
a new specific and sensitive time resolved-fluoroimmunoassay of, in serum, 143
DHEA-sulfotransferase
purification and characterization of a recombinant protein: human, 159
1α-25-Dihydroxyvitamin D_3
a noncalcemic analog of, upregulates the induction of creatine kinase B by 17β-estradiol in osteoblast-like ROS 17/2.8 cells and in rat diaphysis, 205

Estradiol
ICI 182,780 acts as a partial agonist and antagonist of, effects in specific cells of the sheep uterus, 281
inhibition of glucocorticoid receptor expression and induction of glucocorticoid resistance by, in MCF-7 human breast cancer cells, 29
regulation of insulin-like growth factor-I and thioredoxin expression by, in the reproductive tract of the prepubertal female lamb, 123
Estrogen(s)
receptor(s)
identification and characterization of membrane, from MCF7 estrogen target cells, 97
involvement of cyclic AMP response element binding protein and, phosphorylation in the synergistic activation of the, by estradiol and protein kinase activators, 193

Formestane
pharmacokinetics and metabolism of, in breast cancer patients, 39

Glucocorticoid(s)
molecular mechanisms of, action in rheumatic autoimmune diseases, 185

receptor(s)
inhibition of, expression by estradiol in MCF-7 human breast cancer cells, 29
involvement of, in the neuroprotective and antiapoptotic effects of melatonin in cerebellar neurons, 151
Growth hormone
activation of renin-aldosterone system by, in children with idiopathic short stature and in a pseudohypoaldosteronism patient with a mutation in epithelial sodium channel alpha subunit, 49

11β-Hydroxysteroid dehydrogenase type I
induction of, in human aortic smooth muscle cells by inflammatory stimuli, 117
3β-Hydroxysteroid sulfotransferase
expression and characterization of the human, 261

ICI 182,780
acts as a partial agonist and antagonist of estradiol effects in specific cells of the sheep uterus, 281
Insulin-like growth factor-I
regulation of, by estradiol in the reproductive tract of the prepubertal female lamb, 123

Low density protein
role of pre-existing redox profile of human macrophages on lipid synthesis and cholesteryl ester cycle in presence of native, acetylated and oxidised, 73

Mammary gland
overexpression of aromatase in transgenic male mice results in the induction of gynecomastia and other biochemical changes in, 13
MCF-7 human breast cancer cells
identification and characterization of membrane estrogen receptor from estrogen-target, 97
inhibition of glucocorticoid receptor expression and induction of glucocorticoid resistance by estradiol in, 29
Melatonin
neuroprotective and antiapoptotic effects of, in cerebellar neurons involve glucocorticoid receptors and p130 signal pathways, 151

Neuroblastoma cells
synergistic anti-proliferative effects of vitamin D derivatives and 9-*cis* retinoic acid in SH-SY5Y human, 213
Nitric oxide
evidence for the involvement of, in the control of steroid secretion by the frog adrenal gland, 251

Osteosarcoma cell(s)
vitamin D compounds exert anti-apoptotic effects in human, *in vitro*, 1

Peroxisome proliferators
negative regulation of liver X receptor-mediated activity and sterol biosynthesis by, and fatty acids, 59
Progesterone
modulation of, hydroxylation profiles by post-translational modification of an electron transfer protein in *Streptomyces roseochromogenes*, 87
Protein kinase activators
involvement of cyclic AMP response element binding protein and estrogen receptor phosphorylation in the synergistic activation of the estrogen receptor by estradiol and, 193

Receptor(s)
estrogen(s)
identification and characterization of membrane, from MCF7 estrogen target cells, 97
involvement of cyclic AMP response element binding protein and, phosphorylation in the synergistic activation of the, by estradiol and protein kinase activators, 193
glucocorticoid(s)
inhibition of, expression by estradiol in MCF-7 human breast cancer cells, 29
involvement of, in the neuroprotective and antiapoptotic effects of melatonin in cerebellar neurons, 151

steroid(s)
contribution of, coactivator-1 and CREB binding protein in ligand-independent activity of estrogen receptor β, 19
Retinoblastoma protein
differential regulation of, by hormonal and antihormonal agents in T47D breast cancer cells, 135
Rheumatic autoimmune diseases
molecular mechanisms of glucocorticoid action in, 185

Shionogi carcinoma cells
isolation of an androgen-inducible novel lipocalin gene, argl, from androgen-dependent mouse mammary, 109
Steroid(s)
receptor(s)
contribution of, coactivator-1 and CREB binding protein in ligand-independent activity of estrogen receptor β, 19
Steroid hormones
common phytochemicals are ecdysteroid agonists and antagonists: a possible evolutionary link between vertebrate and invertebrate, 229
Steroid 5α-reductase
site-directed mutagenesis studies of rat, (isozyme-1): mutation of residues in the cofactor binding and C-terminal regions, 177
Steroid secretion
evidence for the involvement of nitric oxide in the control of, by the frog adrenal gland, 251
Sulfotransferase
high metabolization of catecholestrogens by type 1 estrogen, 83

T47D breast cancer cells
differential regulation of retinoblastoma protein by hormonal and antihormonal agents in, 135
Thioredoxin
regulation of, by estradiol in the reproductive tract of the prepubertal female lamb, 123

UDP-glucuronosyltransferase cDNA
isolation and characterization of the monkey, clone monUGT1A01 active on bilirubin and estrogens, 239
Uterus
ICI 182,780 acts as a partial agonist and antagonist of estradiol effects in specific cells of the, in sheep, 281

Vitamin D
compounds of, exert anti-apoptotic effects in human osteosarcoma cells *in vitro*, 1
synergistic anti-proliferative effects of, derivatives in SH-SY5Y human neuroblastoma cells, 213

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of **The Journal of Steroid Biochemistry & Molecular Biology**:

HILAKIVI-CLARKE L., Washington, U.S.A.
LONG B., Baltimore, U.S.A.
LUU-THE V., Quebec, CANADA
RHEN T., Research Triangle Park, U.S.A.
WATSON C.S., Galveston, U.S.A.
YLIKOMI T., Tampere, FINLAND
